

Newsletter - February 2007

At first the show was slow due to the great blizzard we had the first day but once the weather changed we had some good numbers of visitors at the show. We will be now home for a few days before we keep driving to Phoenix and Salt Lake City. Of course we are getting a lot of snow now in Canada and it looks like we are having normal water levels. We continue to give away our 2 day full American Plan fishing trip per show. The winners are as follows
